

New Generation Water Sanitiser & Biocide

VTC Clean

Ideal partner in first line of defence against all types of microbes.

VTC Clean has an extra broad spectrum of activity, sustainable/green chemistry, environmental integrity and safety in usage making it a biocide of choice for a host of industries.

VTC Clean is a new generation, highly efficient, multipurpose biocide. It is a perfect, synergistic blend of cationic polymer, biguanide and acidified quats.

Composition:

Didecyl Dimethyl Ammonium Chloride.....	1.00% w/v
Poly Hexa Methylene Guanidine.....	0.30% w/v
DM Water to Make.....	100% w/v
Inactives.....	q.s.

Salient features:

- Bactericide, fungicide, virucide, algacide, slimicide, oocysticide, molluscicide and removes Biofilms
- Instant action, Very long residual effect
- Non corrosive to metal, plastic, rubber, wood at user dilution
- Sustainable chemistry
- Non toxic, non irritant and safe
- User and eco friendly
- Phosphate, chlorine, phenol & aldehyde free
- Can be safely used along with water acidifiers.

Indications/Application/usage schedule:

Water Sanitation	1 ml per 10 ltrs of water	Add daily
During Disease outbreak	1 ml per ltr of water	Continuous
Presence of Birds	10 ml per ltr of water	Spray*
Egg tray disinfection	10 ml per ltr of water	Dip & wash
FMD / Bumble Foot	2.5 ml per ltr of water	Dip feet daily

* 1ltr of usable solution for every 150 sq ft carpet area

Packing:

1 Ltr. & 5 Ltrs.
